

CUSTOMER SUCCESS STORY

Econet Eradicates Barriers to Digital Education

Econet Zero provides free access to world-class education content

As part of *EcoSchool* – a digital education platform – Econet Wireless Zimbabwe offers free Internet access to world-class education content for all Econet broadband users in Zimbabwe. *Econet Zero* is yet another service that helps Econet stand out from the competition.

Free access to 50+ sites

Econet Zero provides free access to more than 50 websites, including local universities, early education, MOOCs and other online courses, recorded lectures from leading institutions, test prep resources, ebook archives, math tools, language sites, music education, how-to guides, research and encyclopedia sites, and even random knowledge and trivia.

Behind the Scenes

Like Econet's famous Facebook and WhatsApp plans, *Econet Zero* is powered by Sandvine's traffic classification and online charging technologies.

These solutions ensure that Econet's subscribers get the access they're promised, but they also prevent fraudsters from abusing the service.

About EcoSchool

EcoSchool is a digital education platform that provides scholars and educators with on-the-go affordable and reliable access to world-class educational content.

EcoSchool offers digital education for all, giving access to quality information; anywhere, anytime! Think of *EcoSchool* as education for the digital generation.

About Econet Wireless Zimbabwe

Econet provides voice and data services to mobile users throughout Zimbabwe.

Since launching services in 1998, Econet has developed a well-earned reputation as a first-mover and innovator. In 2009, Econet became the first operator in Zimbabwe to launch 3G services; later, Econet launched Zimbabwe's first LTE network.
