

## GTT Invites Everybody to Connect

### GTT Mobile Plans

**Pay Less. Do More.** Do more with plans that put you in the dialer's seat. GTT's pre-paid and post-paid mobile services let you decide how much or how little you want to talk, text, surf ... and spend!

All GTT mobile customers with a data capable phone are able to visit essential sites for FREE. Click [here](#) to view the list of sites.

### GTT's "Free Basic 4G Services" provides free access to educational websites

As part of GTT's *Free Basic 4G Services*, GTT offers free 4G Internet access to more than 20 local and international educational sites. This service enables Guyanese citizens to expand their access to knowledge and to discover the power of Internet connectivity.

#### Free Access to 20+ Sites

*Free Basic 4G Services* offers free access to more than 20 local and international websites, including Wikipedia, Educationgy.org, Guyana Learning Channel, Google.gy, Gina.gov.gy, and the major newspaper sites in Guyana.

To ensure that all customers can access the service, an active data plan is not required; instead, customers just need a data-capable device to start browsing.

#### Enabling the Right Traffic

GTT's *Free Basic 4G Services* is powered by Sandvine's best-in-class traffic classification and policy enforcement capabilities.

Because of these capabilities, GTT can easily add or modify the list of websites available in their *Free Basic 4G Services* and ensure that the offering matches the needs of the Guyanese people.

#### Internet as a Public Service

*"The free websites offered by GTT help Guyanese who are not yet connected to the Internet to discover the value of connectivity and expand their access to knowledge and growth. This is part of our commitment to bridging the digital divide and the reason why the Government of Guyana supports it wholeheartedly."*

- Derrick Cummings  
Minister of Public Telecommunications

#### About GTT

Established in 1990, GTT is the leading telecommunications provider in Guyana.

With a subscriber base of over 280,000, GTT is delivering a strong digital experience to Guyana.
