

Sandvine Overview

Active Network Intelligence

Sandvine helps organizations run world-class networks with Active Network Intelligence, leveraging machine learning analytics and closed-loop automation to identify and adapt to network behavior in real time. With Sandvine, organizations have the power of an intelligent, automated platform from a single vendor that delivers a deep understanding of their network data to drive faster, better decisions.

Our solutions make networks more efficient, enable service differentiation, rationalize disparate data sources, and increase profit margins. With 2.5 billion network users across more than 160 major operators and 500 enterprises benefiting from using Sandvine as their network intelligence innovator and partner, Sandvine's Active Network Intelligence is powering the next wave of network transformation, including cloud, encryption, and internet phenomena.

COMPANY FACTS

A SINGLE PLATFORM DELIVERING A PORTFOLIO OF SOLUTIONS

Analytics: QoE-centric network intelligence

Network Optimization: Run profitable, high QoE networks

Revenue Generation: Grow revenue by rapidly deploying innovative services

Revenue Assurance: Identify revenue loss from fraud, piracy, and misconfigurations

Regulatory Compliance: Comply with changing regulations with the most efficient network-based solutions

Automation: Automate with intent

Phenomena: End-to-end application clarity and network control for OTT 2.0

OUR CUSTOMERS

Telecom Operators: Sandvine's solutions can be deployed by network operators of any size, with any combination of access technologies (e.g., Cable/DOCSIS, DSL/FTTx, Satellite, 3G, 4G, 5G, WiFi, WiMAX), in any type of network (e.g., physical, virtualized, or hybrid).

Government Regulators: Sandvine enables government regulators to gain visibility into the quality that is being delivered to consumers and verify the truth in advertising for those services. Sandvine also ensures that network operators can easily comply with regulations that keep children safe and mitigate illegal applications on the network.

Enterprises: Sandvine provides actionable insights that can empower small and medium businesses, enterprises, and educational institutions to reduce their mobile and fixed data usage costs, protect users, and increase productivity. This is done without the need for on-device software or extensive IT expertise through virtual CPE options and cloud-based offerings.

WHY INNOVATORS CHOOSE SANDVINE:

**Global Internet Authority**

The leading authority on the continuously evolving internet phenomena dominating global networks.

**Phenomena-Based Solutions**

Combines unparalleled application visibility with contextual awareness to deliver complete and comprehensive solutions in key Phenomena areas: Video, Gaming, and Social Sharing.

**Best Network Data for Intelligence-Based Decisions**

Real-time, high-definition granularity with the industry's most accurate classification of what, who, and how network traffic is being consumed.

**Visualized Value / Single Pane of Glass**

The Active Network Intelligence Portal is the visualization of the breadth and depth of Sandvine's contextual data, including a set of unique QoE scoring metrics on network traffic.

**Proven Leadership for Inline Actions**

Trusted for over 20 years in large scale telco networks as the 'internal engine' for intelligent policy for traffic control and mitigation.

**Analytics-Driven Automation**

Automation-based use cases drive decisions and actions in a closed-loop cycle, and deliver operational savings and improved network efficiency to solve current and future network problems.
