# Network Policy Control Essentials

Network Policy Control Essentials is a lab-based course that teaches how to configure, manage, and support the Policy Traffic Switch (PTS), the Subscriber Policy Broker (SPB), and the Service Delivery Engine (SDE). It is the starting point for training for anyone who will be using Sandvine's Network Policy Control suite."

## **COURSE OVERVIEW**

Intended for operations and maintenance, support, design and planning, and engineering personnel, the objective of Network Policy Control Essentials is to convey a high-level understanding of Sandvine solutions.

## **Objectives**

In addition to ensuring that you understand the relationship between Sandvine's solutions, products, platform, and technologies, NPC Essentials teaches you how to:

- Manage, configure, and support Sandvine platform components: Policy Traffic Switch (PTS), Subscriber Policy Broker (SPB), and Service Delivery Engine (SDE)
- Produce standard or custom reports using Sandvine Network Demographics
- Gain insight into your network through the use of Sandvine tools (e.g., Control Center and its PowerView, etc.)
- Unleash the power of Sandvine by writing basic network polices using SandScript
- Prepare yourself for the range of Sandvine's solution-specific and advanced courses

## **Course Outline**

High-level introduction

- Sandvine overview
- Product and platform overview

# Configuration

- Initial and system configuration
- Cluster configuration

## Manage

• Control Center and its PowerView

## Support

- Upgrades
- Monitoring and troubleshooting
- Administration

## Subscribers

- Defining the subscriber network
- Subscriber mapping

#### Business Intelligence

- Creating and scheduling reports using Network Demographics
- Measurements
- · Classifiers and published expressions

## SandScript

- Policy Engine and SandScript
- Sandvine's Base Traffic Management

#### **Next Steps**

We have a comprehensive collection of courses, designed to help you get the most out of your Sandvine solutions.

- Network Analytics Operator
- Fairshare Traffic Management
- · Policy Enforcement and Online Charging
- Policy Charging and Rules Function (PCRF)
- Quota Manager
- Record Generator

#### **Advanced Courses**

- Advanced SandScript Writing
- Troubleshooting Sandvine

# **Prerequisites**

Basic knowledge of networking principles

#### Course Duration

Four Days
